# Built-In Quality

- **TORQUE MASTER** Balanced Grinding System
- Bio Shield Antimicrobial Protection
- **Speed Master Mounting System**
- Attached Power Cord
- Corrosion Proof Grinding Components

THE ONLY DISPOSER TREATED WITH...

**Bio Shield (Antimicrobial)**  
For **ODOR PROTECTION!**  
Disposers are treated with an antimicrobial agent molded inside providing protection against odor causing bacteria growth.

**TORQUE MASTER** 

**Balanced Grinding System**  
Is a combination of computer designed and balanced components working in unison to provide superior torque grind speed and long system life.

- High Speed - High Torque Permanent Magnet Motors
- Balanced Turntables
- All Stainless Steel Grinding Components (except 058)
- Stainless Steel Armature Shaft
- Corrosion Proof Grinding Chamber
- Laser Sharp Cutting Ring
- Quieter Operation

**Silver Guard** 

The magnetic Silver Guard captures most metal objects before they enter into the disposer chamber. This protective feature helps prevent damage to valuable cutlery. It also helps prevent damage to the disposer as well as expensive repairs caused by metal objects falling into the disposer.

**AIR SWITCH POWER OPTION**

The disposer is turned ON and OFF by air pressure created by pushing the button. The air travels from the button, through the air tube which is connected to the air switch inside the electrical box.

The Dual Outlet Air Switch (Built-In option) available with the Mid Duty models and above.

It provides an extra outlet for the hot water dispenser or compactor.

- Easy Installation
- Safe to use with wet hands
- Great for islands
- No wiring - Air activation

**FAST INSTALLATION**

The **Speed Master Mounting System** has only six components and can be installed in a few minutes without the need for tools. It is much faster than the old style 3-bolt system with its ten parts and tool requirement. Attached power cord saves time and costs.
